**Parent Restriction Form for Cafeteria Accounts**

It is important that parents have control over their child(ren's) spending in the cafeteria, as well as have the ability to notify the cashier of any food related requests pertaining to your child's health, such as allergies or dietary restrictions.

If you want to limit what your child buys, we urge you to fill out the enclosed form so we can flag their account, therefore stopping unauthorized purchases. We use Nutri-Kids, a computerized system to keep track of student meal accounts.

If you choose to prepay for anything, please make sure your child understands what meals, milk, snacks or beverages you give them permission to purchase. Since we serve hundreds of children each day, we cannot control the purchases your child makes without your permission, and payment is expected for items received.

If you wish to use this option, please check all areas that apply below & return to the school cafeteria. Please direct any questions to Debra King, Food Service Director, 508-234-8163 or [dking@nps.org](mailto:dking@nps.org).
